

How to edit the wiki

We use [DokuWiki](#) as our house wiki, with a few meaningful conventions to ensure content looks fresh. Read about [Formatting Syntax](#) to learn how pages are formatted.

Adding agenda items

Follow these steps to add an agenda item.

1. Ensure that you are logged in.
2. Visit the [meetings page](#).
3. Click on the link to the meeting whose agenda you wish to edit.
4. Click the **Edit this page** link.
5. Add your agenda item beneath the row of equal signs (=) for the next available empty item. You may need to add another row of = if all items have been used. Please link to any online discussions that may offer additional context where possible.

Adding news or meetings

- Meeting agendas/minutes are named “meetings/YYYY-MM-DD”. Doing this ensures that they are listed in the correct order on the front page and on the [meetings page](#).
- News events are named “news/TITLE-OF-EVENT” and are listed in descending order of creation time on the home and [News](#) pages.

To add a new news item or meeting agenda, visit a URL of the form

<http://lareunioncoop.org/news/your-news-title> or <http://lareunioncoop.org/meetings/2099-12-31>. Click the **Create this page** link and start editing.
